FOR IMMEDIATE RELEASE

S1 IT Solutions Welcomes Springgate as ConvergeOne VP of Services

Boise, ID, March 16, 2009 — S1 IT Solutions, a ConvergeOne company, has announced the appointment of Scott Springgate as Vice President of Services for ConvergeOne, LLC, effective March 9, 2009.

S1 IT Solutions, Inc. is a customer-centric IT solutions company offering technical expertise and solution leadership across a wide array of voice and data technologies. S1 is proud of its long-standing commitment to provide leading manufacturer brand solutions backed by exceptional on-site professional services.

ConvergeOne (www.converge-one.com) specializes in the acquisition of companies in the IP telephony market, offering end customers a combination of national reach and hands-on service. There are three operating companies under the ConvergeOne umbrella; S1 IT Solutions (www.chooses1.com), Combest (www.combest.com), based in Atlanta, and NACR (www.nacr.com) headquartered in Eagan, MN.

As Vice President of Services, Springgate will oversee development and management of a comprehensive strategy to further strengthen the ConvergeOne companies' leadership in services delivery. In addition to partnering with sales executives to create an integrated sales and service philosophy, he will work with regional and local teams to help them expand their service offerings and increase their profit margins.

“The rapid adoption of Voice over IP solutions in the enterprise environment has created tremendous demand for services to effectively design, implement and manage those solutions”, according to John McKenna, the CEO of ConvergeOne. “Scott’s knowledge and experience in creating and implementing successful customer service programs will greatly enhance the ConvergeOne portfolio and the value we deliver for those customers.”

Additionally, Springgate will create efficiency/quality standards for service deliverables, and help to identify new services opportunities, both through build-out of existing capabilities and through acquisitions.

ITSOLUTIONS

PRESS RELEASE

Before joining ConvergeOne, Springgate was Vice President of Services at ForceLogix, where he was in charge of strategic planning and operational efficiency for the company's implementation services and support organization. He continues to serve on the company's advisory board. Prior to that, he spent a decade at Siebel Systems, most recently as Vice President of Technical Services, overseeing business units that generated more than \$280 million in revenue annually. In addition, Springgate has provided consulting services to clients in manufacturing, professional services, and high-tech markets.

ConvergeOne, headquartered in Eagan, MN, is a portfolio company of Genstar Capital, LLC (www.gencap.com), a middle market private equity firm that focuses on investments in selected segments of the life science and healthcare services, industrial technology, business services, and software sectors.
